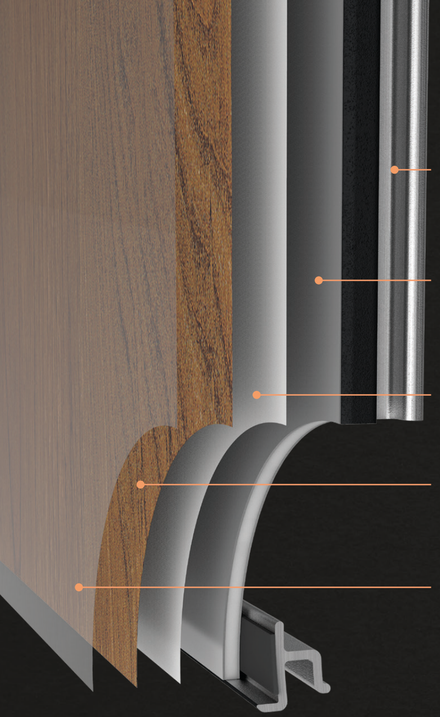
DIGITAL PRINTING

ALUMINUM ARCHITECTURAL PANELS

PANELS, PARTS AND ACCESSORIES



FRAME
Rigid aluminum extrusion, painted to match joint color, adhered to panel with industrial grade tape with 75 lb/in^2 tensile strength.

ACP
(Aluminum Composite Panel)
Panel 4 mm thick, without fold or apparent fasteners. Class A rated Fire Resistant Core.

PRIMER COAT
Specially formulated primer coat assures optimal adhesion between aluminum and ink.

HD PRINTING
High-definition digital inkjet print reproducing a wide range of textures and outstanding color variations.

Z-CLEAR®
A protective clear coat is applied to provide long-term protection against fading.

SYSTEM

Dizal's system is made up of panels and rails allowing for a fast and easy installation.

Extrusions are prepainted in order to reproduce different joint colors. These are installed to the wall first, then panels can be inserted into them.

The complete system includes 4 items:

PANELS

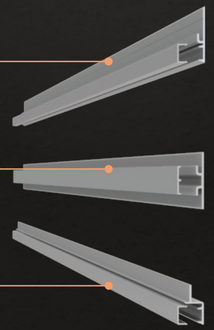
- The panel, with a depth of 0.75'' (1.9 cm), is available at the specified dimension up to a maximum size of 4' x 8' (121.92 cm x 243.84 cm). *
- Spacing between panels is predetermined at 0.375'' (0.95 cm).
- Panels are shipped with a protective film.

* Other dimensions conditionally available.

STARTER STRIP
- Aluminum extrusion with clippable screw cover strip, painted to match joint color.

HORIZONTAL AND VERTICAL DOUBLE FASTENING STRIP
- Two-piece aluminum extrusion with screw cover strip for a horizontal and vertical installation of panels.

FINISHING STRIP
- Aluminum extrusion with clippable screw cover strip, painted to match joint color, allows for on-site cutting and installation of finishing panels.



TESTS & CERTIFICATIONS*

. ASTM E84 - Fire resistance
. ASTM E283 - Static air infiltration
. ASTM E330 - Structural performance
. ASTM E331 - Static water contacting AWB
. ASTM G155 - UV resistance
. ASTM D6578 - Graffiti resistance
. ASTM D3359-B - Adhesion testing
. ASTM D6665 - Boiling water testing
. ASTM D2794 - Impact resistance
. ASTM E413 - Sound insulation
. AAMA 501.1 - Dynamic water infiltration test
. LEED V4
